// "Prolonged standing during surgical procedures poses a high risk of causing musculoskeletal disorders, including back, leg, and foot pain, which can be chronic or acute in nature."

— AORN Journal. June, 2011

The Oasis™ | Anti-Fatigue Floor Mats

Increasing Safety and Comfort for Hospital Staff

The Oasis™ Mat deters the onset of muscle fatigue and helps keep hospital floors clean, dry, and safe.

At the core of the Oasis, between two layers of shock absorbing, closed-cell foam, is the same ultra-absorbent material featured in the Camel™ Mat. An impermeable barrier prevents fluid from reaching the hospital floor, while a non-slip backing keeps the mat securely in place.

- Maximize performance by decreasing muscle fatigue
- Improve infection control by reducing exposure to contaminants
- Increase safety by minimizing possibility of injury from slips and falls
- Save money by reducing turnover time
